Spanish women do not kiss one anot-her—no doubt because to kiss would disturb the paint which they put on their cheeks; but they shake with ungloved hands, and call each other by their Christian names. They read little and write less. HYPOPHOSPHATES OF LIME AND SODA

First-Its taste is pleasant to the palate, and the mode of manufacture digests it in part so as to avoid weakening the digestive organs. Thus the most delicate stomach of a child or an adult can digest it and asimmilate it to the system when they repel absolutely the simple cod liver oil on account of its repulsive taste, and because its abundance of fat will not allow it to be digested and absorbed by the system of strong and robust men. Second.-The hypophosphates combined with cod liver oil in emulsion

increase very much its peculiar qualities, forming together a medicine of festations of phthysis, Scrofula or Emaciation of every description, It is also the best medicine for colds and affections of the throat.
