MONTEVIDEO, SEPTEMBER 28, 1889.

The Police.

The other night as a friend was wandering home, and as he passed a well known Café, he noticed that there evidently was a violent disturbance or altercation going on within.

The moment afterwards a man rushed out followed by another. The first in his hurry stumbled over the curb stone and fell into the street. Our friend who was not thirty yards off was hastening to help the fallen man, when, before he could get to him, a policeman had run up and taken charge of him; at the same time blowing his whistle; before the elapse of half a minute a mounted officer has galloped to the spot, followed by a two policemen on foot, and within less time than it takes to write it, the fallen man, and his companion were *taken care of* and the café also was in due charge. This happened shortly after midnight, and gives a good example of the smartness of Montevidean police.

From the written regulations issued to the public and which are duly enforced by the officers, there is stationed a policeman at the corner of each two squares. The configuration of the City of Montevideo lends itself especially well to this arrangement; but that would not be of much avail if these regulations were not strictly carried out by the Police authorities.

Colonel Don Salvador Tajes is the Chief of the police and the discipline and good management of the men under his command is very apparent to a comparatively new comer from Europe.

A policeman can always be found, he answers civilly any indifferently worded question that is put to him. Rampant crime is unknown in Montevideo, because if there is any approach to it, the police are instantly on the track.

The system of having men at the corners of the street squares (in the middle of the road) is a simple but effective means of communication, the whistle of one sentry can always be heard by the next man on duty, and the mounted patrol passes within every hour. We are informed that not very long ago Colonel Tajes went the rounds himself at 3 o'clock in the morning. He found a few, very few, delinquents asleep, perhaps on a door step. He gently admonished the men, but sent them straight off to their superior officers, to report to him, why they had not duty inspected each man on duty. The Superior Officers had to hurry up to his Office at 4 o'clock in the morning to give explanations. This true story gives us an insight as to why the police force is so smart and efficient. Let the praise go to whom it is due.

The Queen's speech.

Parliament was formally prorogued until Saturday, the 16th day of November next, the Lord Chancellor declaring this to be done in Her Majesty's name and in obedience to Her Majesty's command.

The proceedings terminated at 12.30.

MY LORDS AND GENTLEMEN,—

It is with much satisfaction that I release you from the labours of a protracted Session.

My relations with other Powers continue to be of the most cordial character. Since the commencement of this Session nothing has happened to diminish the confident expectation of unbroken European peace which I was then able to express.

The only exception to the tranquil course of events since that period has been a very partial renewal of the attempts formerly made by the followers of the Madhi to invade the southern frontier of Egypt. The invading force was arrested and dispersed with conspicuous skill and complete effect by the troops of His Highness the Khedive, supported by a small British contingent, under the command of General Grenfell.

A Conference upon the affairs of Samoa, consisting of Representatives of Great Britain, Germany, and the United States, was assembled at Berlin in the spring, and agreed upon a Convention for regulating the government of those Islands. This instrument has been accepted by me and by the German Emperor, and now awaits the assent of the Senate of the United States.

At my suggestion, the King of the Belgians has consented to summon to the autumn a Conference of the European Powers at Brussels which will consider the present condition of the Slave Trade both by land and sea, and will deliberate upon measures for arresting or mitigating the evils which it still inflicts upon mankind.

I have come to an agreement with the French Republic by which various controversies with respect to the boundaries of our respective possessions on the West Coast of Africa have been adjusted.

A new Postal and Telegraphic Convention has been concluded with France and Germany.

It has afforded me much pleasure to accept the loyal offers of several of the native Princes and Chiefs who have come forward to share the military burdens imposed upon my subjects in British India, and I welcome their co-operation in the common defence of the Empire.

GENTLEMEN OF THE HOUSE OF COMMONS,—

I gladly acknowledge the care and liberality with which you have provided for the wants of the public service.

MY LORDS AND GENTLEMEN,—

The measures which you have taken, with no grudging hand, to strengthen the naval defences of the Empire, will enable my subjects to pursue their industry and enterprise in more complete security and peace.

The Act for reforming the Local Government of Scotland will, I am convinced, contribute largely to the welfare and contentment of my people in that Kingdom.

I much regret that the pressure upon your time has prevented you from passing a Bill for conferring Responsible Government on my subjects in Western Australia. I trust that this very desirable object may be effected at an early period.

I note with satisfaction the valuable improvements which you have introduced into the constitution of the Universities of Scotland, and the steps you have taken towards the establishment of technical education in England and Wales. The Intermediate Education Act for Wales will supply a deficiency in the educational system of the Principality which has been acutely felt for many years.

I have assented with much pleasure to a Bill for bringing the less prosperous portions of Ireland into rapid communication with the principal markets of the United Kingdom, by means of a systematic extension of railways. This provision will confirm the increasing agricultural and commercial well-being which has accompanied the gradual suppression of disorder in that country.

I sincerely hope that the new Board of Agriculture may be the means of still further developing the oldest of our national industries.

I am thankful to be able to recognise that the signs of a growing prosperity, the fruit of returning confidence, are everywhere discernible. In the hope that, under the operation of your wise counsels, it may be strengthened and prolonged by the hearty concord of all my subjects, I commend you reverently to the merciful care of Almighty God.

By order of the Secretary, all forfeits must be declared before 4 o'clock on 30th September.

THE SENATE—At the session held yesterday the law for a concession relative to the Paysandu and Salto water works was re-debated in the Senate on the clause as to whether the term of the duration of the concesssion should be shortened from 30 years as originally proposed, to 20 years, as had been moved in a previous debate.

The term of 30 years was confirmed, and the power of expropriation by the authorities was agreed in, these terms. For the first ten years, the works shall be purchased (if expropriated) at cost price, plus 20 o|o. For the next ten years at cost price, plus 10 o|o, and afterwards at an appraised price.

BRINDIS DE SALAS.—This accomplished violin artist had a benefit at the Politeama Theatre on Thursday night. Valuable presents, bouquets of flowers, and salvos of applause were showered upon him, and he may be said to have had a magnificent ovation from a crowded and fashionable audience.

We need hardly say that Señor Brindis de Salas played with his accustomed brilliance and masterful manipulation of his instrument and these qualities were especially manifest in the paraphrase of «Faust,» which was splendidly rendered, but it is almost invidious to particularise one piece, when all were so faultlessly played, it is simply from appreciation of so no music over some other that the greater pleasure of listening to this or that performance is due, because the execution of each in its own especial style was almost faultless. We are glad to hear that Señor Brindis de Salas will twice again appear before a Montevidean audience, tonight and tomorrow night.

Señor Polonini has arrived from Buenos Aires to prepare for the coming of the Tomba Company, who will begin their season at the Politeama in a few days.

DUEL.—A duel with sabres took place on Thursday evening near the Barrio Reus between Sr. D. Leon E. Muñoz and Antonio Garcia, bot officers in the Artillery Regiment.

In the first assault Muñoz was wounded in the left rib, but the fight was continued. In the second assault he received a severe wound on the head. The doctor in attendance conveyed him back to barracks. The seconds were also Officers of the same regiment. Both the combatants are under arrest at their quarters for this affair.

ARGENTINE NEWS

IMMIGRATION MOVEMENT—25 immigrants were dispatched on Tuesday to the interior, 50 found employment in this city and 2525 remained at the hotel.

THE TURF—The following were the favourites on Tuesday night at the different auction rooms for Sunday's meeting in the Argentine Hippodrome: in the Gold Cup Stud Huetel with Indécis, in the Governor Hill Prize Stud Cosmopolita, in the Cormeilles, Alto, and in the Gladiador, Monarque.

PLAZA EUSKARA—A game of 50 up will be played at this ball-alley to-day viz. Beloqui and Samperio v. Mardura and Baltasar. Beloqui to play *back*. The favourites are sure to be Mardura and Baltasar, as people have very little confidence as to Beloqui's play as *zaguero*, pitted as he is against that master *zaguero* Mardura.

Beloqui's place is inside, and lovers of the ball have been so accustomed to admire his position that they are slow to believe he can make any show when out of his element. When playing at the Fronton on one or two occasions we had the pleasure of seeing him playing *back*, and his play struck as so satisfactory, that we shall not hesitate in giving our vote for him and Samperio to-day in the game of 50 up against Baltasar and Samperio.

SUICIDE—A man called Alejandro Aparicio committed suicide about nine on Tuesday night from the embankment wall facing the Calle Lavalle.

It seems that the policeman on duty at the corner of Paseo de Julio heard the report of firearms and on arriving at the wall all he could see was the man's hat with two letters inside, in which he said that he was about to Kill himself as he was tired of living. The unfortunate man had evidently first shot himself and then jumped into the water. The body has not yet been found.

DUEL.—The duel between Drs. Del Valle and Salustiano Zavalia took place on Tuesday afternoon in the «paddock» of the National Hippodromo. Dr. del Valle's seconds were Drs. Manuel Gorostiaga and Leandro M. Alem and his opponent's were General Mansilla and Sr. Rufino Varela Ortiz. The weapon was the pistol and the distance between the duellist was twelve paces. Two shots were to be exchanged. Each time the pistols were discharged simultaneously, but happily without effect, and the two duellists then shook hands and returned to their respective homes, where many friends were awaiting them.

The Señora del Valle knew nothing about the duel until it was over, and was surprised at the unusually large number of callers at her house.

COLLISION—A collision took place on the 21st at 2 p.m. at the Belgrano station of the Northern railway, whereby damages were done to the locomotive of a passenger train and waggons lying in a siding to the amount of $2,000.

It seems that on the approach of a passenger train timed to arrive at Belgrano at the hour above-mentioned some criminal hand had opened the points into a dead siding occupied by some goods waggons, the driver of the train not being aware of the danger till right upon it, when he reversed brakes and did all in his power, but not before the train received a rude shock from collision with the stationary waggons.

ACCIDENTS—A boy called Tomas Bruno who was amusing himself in the Calle Rivadavia, between Rioja and Catamarca in jumping on to the tramcars which were passing; in trying once too often jumped from a City of Buenos Aires car right in front of an approaching cart, one of the wheels passing over and fracturing his right leg before the driver had time to detain the vehicle.

TRAVELLERS—The rise of the premium on gold is causing the hasty return of the Argentines who have been travelling in Europe.

SANITARY WORKS—The Municipal Intendant has ordered that, during the execution of the Sanitary Works, the following streets shall be closed:—Peru from Victoria to Independencia; Chacabuco, between the same; Piedras from Rivadavia to Independencia; Chile, from Piedras to Lima and Independencia from Peru to Lorea.

BRAZILIAN NEWS

—The «Sociedade Colonisadora» of Hamburg has asked permison to transfer its contract of 14th January, 1888, with the Brazilian government, to a syndicate of German capitalists, who will carry on the business of exporting colonists to Brazil under the same title. The minister of agriculture has consented to the transfer, subject, however, to an approval of the statutes of the new association.

—A skillful and successful fraud was perpetrated on the Banco do Brazil on the 12th by an individual signing the firm name of Vieira Silva & Co., which is now supposed to be an assumed name. He appeared at the bank about one year ago, when he deposited a sum of money and opened an account current. Since then he has been depositing and drawing money at frequent intervals, thus familiarizing himself with the practices of the bank and making himself known to the employés. On the 12th he presented a cheque for 1,000$ (*um conjo*) which was visèed by the bookkeeper, but before presenting it to the paying teller he skillfully changed the amount to 70,000$ (*setenta contos*) which sum was promptly paid in cash and two cheques he left 500$ on the counter, which the teller kept for him until later in the day when an inquiry as to his place of business and an examination of the cheque exposed the swindle. In the meantime the swindler had cashed his two cheques, and had disappeared. The police have as yet been unable to find him, it is probable that he had everything carefully arranged and had selected his time so as to make good his escape. Subsequent investigations have shown that this fraud is only one in a series by which the Bank of Brazil has been swindled out of a very largesum of money. On the 11th a raised cheque of 14, 400$ was paid, and on the 12th, in addition to the fraud above described, three other raised cheques of 20 000$, 15,200$ and 30,000$ respectively were cashed—and all by the same paying tellor, Francisco Alves Barroso. The total amount of these raised cheques is 160 600$, Barroso was examined on the 14th and was then placed under arrest as an accomplice of the swindlers, Another individual, named Manoel F. de Lima e Silva, whose record is somewhat questionable, has been arrested on suspicion. Both deny all connection with the frauds. We are informed that the bobok-keeper of the bank is about a week behind in posting his books, and this has made the prompt detection of those frauds impossible. If the Banco do Brazil wishes to avoid these frauds, its directors will have to revise its staff very throuroughly and employ men who are bankers rather lawyers and politicians.

—It is calculated that less than 120,000 votes were cast through out the whole empire in the recent elections. This is about one vote to every 100 of population.

—An imperial decree of the 14th inst declares lapsed the concession granted 14th August, 1872, for the improvement of the harbor of Paranaguá, province of Paraná.

—The Brazilian vice-consulate at Sidney, New South Wales, has been elevated to the rank of a consulate, with jurisdiction over the whole of that colony. The government has appointed Dr. Alexander Patterson as consul.

—The summary published by the *Gazeta de Noticias* upon the elections of 31st August shows the election of 86 liberals and 4 conservatives, with the probable success of 10 liberals and one conservative. There will be a second election in 24 districts.

—The Br. ship *Larnica* from New York brought 11, 956 *brls.* of wheat. The style of package is so peculiar that curiosity was excited and the inference is that while empty barrels pay duties in Brazil, wheat in barrels only pays *expediint*. Here is a wrinkle for the American expert.

—The inspector-general of hygiene has at last awakened to the fact that smallpox is getting very general throughout the city and threatens an epidemic. He recommends the district inspectors to use every diligence to prevent the extension of the disease and to disinfect all premises where it has appeared.

—The police authorities report having found the so-called hook-makers' banks—properly classed elsewhere as «bucket-shops»—carrying on an improper business and that they ought to be closed up within a specified time under penalty of having their effects seized. A judicial action has already been instituted against one of them for the return of money fraudulently obtained.

—Among the arrivals here from the River Plate on the 14th was Prof Henry A. Ward, of Rochester, N. Y., the widely-known scientist and natural history collector, who is just terminating a ten months excursion through South America in search of the objects of scientific value which are worked up into collections for schools and colleges at his celebrated Rochester establishment. Professor Ward intends to stop in Rio only a few days and will then leave direct for Europe.

—A contract has been signed by the government and Vicente do Toledo for a 40 years privilege to mount compressed air factories. The contractor may lay pipes and sell compressed air in boxes and portable tubes. The patent under which Sr. Toledo is to work is described as that of Victor Pope. We may add that the use of compressed air is specially adapted to the hermetically-sealed *alcoba* in which the old-fashioned Brazilian is so fond of sleeping.

—We are informed that the agents of a Philadelphia manufacturer of agricultural implements has recently been meeting with unprecedented success in this vicinity and in Sao Paulo in the sale of an improved cultivator. This is a decidedly encouraging sign, and we trust it will be followed by the intelligent use of improved plantation implements and machinery in every direction. The common plough, however, should be more generally used, and the plantation laborer should be taught by competent men how to use it.

—The minister of agriculture has reopened the tender for executing sewerage works in the suburbs of Engenho Novo, Todos os Santos and Engenho de Dentro, and has decided that the proposal of the City Improvements Co, is not in accordance with the conditions imposed by the fiscal engineer. He therefore orders new conditions and specifications to be prepared so that the work may be awarded to whatever party may offer the best terms. Perhaps the contract might be given to the gas company, or to the water-works department!

—We see by some of the telegrams abroad in regard to the supposed attempt on the life of the Emperor, that the accused declares that «he was instigated to make the attempt upon the Emperor's life by a republican association» Our foreign readers may believe just as much of this as they please. The accused so far as we can learn, this made no such statement; it is not even shown that he belong to a «republican association.» The young fool has made so many contradictory statements and the evidence against him is so weak that there is every reason to believe that he did not fire at the Emperor.

—If every man realizes all the money he expects to make out of the speculations now on foot, it will amount in the aggregate to many times the capital of all the companies affected. Where the cash is to come from is puzzling us just at the present moment—but perhaps some one may lose!

—On the 5th inst, the Banco Credito Real de Minas Geraes announced that it commenced business, and on the next day a meeting was called for the 23rd to consider an increase of capital and reform of the statutes. The inference is that in one day the directors found their capital insufficient and their statutes faulty.

—Subscription lists for 36,000 shares of 100$ each of the S. Jeronymo mines company will be opened to-day (16th), to close on the 18th. The company has obtained a contract for the introduction of immigrants into the province of Rio Grande do Sul, and proposes to construct a railway to serve its mining properties.

—The subscription lists for the new 4 per cent. loan were closed on the 10th. In Rio the amount applied for reached 381,929,000$, of which 105,543,000$ was at a premium. The loan has consequently been successful, and tenders at the minimum will not participate. The amount of premiums paid into the banks here was 1,279,23)$500.

LATEST FOREIGN NEWS

Loudon, August 20.

The dock labourors, strike continues Prolonged conferences took place yesterday between representatives of the men and of the dock companies and wharfingers, with the result that the London and India Docks joint committee state that all the demands of the strikers might be arranged to the satisfaction of both parties except that for an additional penny per hour. The men, however, remain firm in their intention not to modify their original demands. Speaking at a large meeting of the strikers Mr. Burns announced that it was in contemplation on behalf of the men to cooperate with the wharfingers, with a view to the vessels entering the Thames being unloaded at the wharves or in mid-stream. After a period of excitement the dispute among those engaged in the coal trade has been settled—the employers conceding the demands of the men absolutely for the time, with the idea of testing their effect.

Several cases of intimidation and assault, arising out of the dock labourers' strike, came before metropolitan magistrates yesterday. At the Thames Police-court two men were sentenced to three months hard labour each, and a third to two months. Others were fined or bound over to keep the peace. At Marylebone two young men were sentenced to a month's hard labour each.

The House of Lords sat yesterday afternoon. The Expiring Laws Continuance Bill and other measures were read a third time and passed. At half-past five the sitting was suspended, and on its being resumed at ten o'clock the Technical Instruction Bill was read a first time. The Appropriation Bill was passed through all its stages.

The House of Commons having sat till four o'clock yesterday morning and passed the Technical Instruction Bill through the Committee stage met again shortly after noon, On the order for the third reading of the Appropriation Bill, Mr. Sexton called attention of Irish Education. Mr. Balfour laid that something ought to be done to give higher University education to Roman Catholics in Ireland, and he would endeavour to devise a scheme. There must be a Bill and it would have the attention of the Government. Mr. R. Wallace and Mr. E. Robertson spoke strongly against this policy. The Bill was read a third time. The Technical Instruction Bill was afterwards made applicable to Ireland, and the House adjourned until to-morrow.

The Queen arrived at Balmoral yesterday, Her Majesty has sent a letter to the Chairman of the Llangollen Local Board expressing pleasure with her visit to that town, and also making him a present of an engraving.

Yesterday was the last day of the naval manœuvres. No fresh movement of any importance was reported.

Lord Addington died at Addington Manor yesterday at the age of 84. He is succeeded in the Hon. Egerton Hubbard M. P. for North Buckinghamshire where a vacancy now occurs.

Our Tiflis Correspondent telegraphs that acording to the latest advices from Armenia, the country is in a state of anarchy. The soldiers have become disafected, and numbers have been sent to various parts of Europe. Many Mohammedans are leaving Armenia, partly because the Government is powerless to protect them against the Kurds, and partly because they fear that the country will become Russian.

At a Cabinet Council held at Fontainebleau yesterday, under the presidency of M. Carnot, it was decided that the General Election should take place on the 22nd of September. The number of persons arrested at the Boulangist meeting at the Cirque Fernando was 78, and among them is M. Thiessé, a Boulangist deputy.

Sir Thomas Farrer, speaking last night at Abinger, Dorking, referred to the question of rating. Local taxation was increasing enormously, for in our present advanced and complex state of civilization we were constantly requiring new things for education, drainage, and protection of health. Free education would of necessity come to pass shortly, because it was unreasonable to compel poor men to send their children to school and expect them to pay for their education. That would necessarily increase the rates now unjustly levied wholy upon occupiers. The burden of taxation must be apportioned fairly, and landowners bear their fair share.

Paris 24.

The Republican papers are delighted with the result of the elections, and say that the second ones will only add to their majority.

The defeat of Ferry is deplored but a seat will shortly be found for him.

La Republique Francaise says that the Government has the victory and that the Chamber will work in the interests of the nation and avoid questions which invite discussion.

Le Journal des Debats, has not much confidence in the common-sense of the new majority. The Royalist and Boulangist organs says that the result of the elections has undeceived people, and expect that the opposition will be strengthened at the new elections.

Rome 24.

The Popolo Romano says that the French elections have saved Republicanism but not the Cabinet, and shows that France desires peace. Other papers say that the Boulangist party is completly routed.

Berlin 24.

The German papers consider that parties in France are not altered by the result of the elections, but that the outlook is more peaceful, and that as Germany desires peace, it is content with the election.

Vienna 22.

The Vienna press considers that the French elections are a victory for the republic and a defeat for Boulanger and if the radicals and republicans join together for the second elections that a compact majority should be established by which a dictatorship would be avoided.

London 25.

Boulanger is reported to have said that he did not expect his party to have a majority in the Chambers, but that he had hopes for the future. He believed

the Government had manipulated the votes, but that the majority would soon be ungovernable and then he should be called to power. He avoids publicity, but will probably issue a fresh manifesto.

New York 25.

The *New York Times* says that from the best information the belief is that the result of the elections in France are favorable to the Republican party, and that although the majority in the Chamber may be smaller, it will be more compact and free from internal intrigues.

Paris 25.

The defeat of Ferry and Goblet is attributed to their having promoted the law against multiplied candidatures.

The Hague 25.

Parliament has approved a law allowing vessels under a foreign flag to undertake coasting trade in their Indian possessions.

Cairo 25.

The Egyptian Government has again requested the French Government to adhere to the scheme for the conversion of the debt.

London 26.

Queen Victoria intends going to Germany to return the Emperor's visit.

The Bank of England has raised the rate of discount to 5 o|o from 4 o|o at which rate it has stood since 19 August.

Special Service

Buenos Aires 27.

A fraud committed by the agents of steamers which receive passage money for immigrants has been discovered by the Immigration Office. The agents send invalids and beggars as far as Montevideo and from thence forward them to Buenos Aires. The Authorities will compel these steamers to take back these persons free, or will withdraw their subvention.

The Gas companies have raised their prices 25 o|o.

The Provincial Convention has passed a law to reform the length of period in which the post of Governor of the province of Buenos Aires can be held.

A servant at the Café Moreno has been found assassinated in his bed, with 18 dagger wounds.

The upper part of a house in Calle Florida fell down, two families lived in the rooms. A woman and two children had a miraculous escape, but one woman who was lame was crushed in the ruins.

General Notes

—The U. S. man-of-war Tallapoosa arrived yesterday morning at this port from Buenos Aires.

—Particulars have been received of the destruction by fire, already reported, of three large ships at Port Costa on the 26th ult., with their 10,000 tons of grain, also the total destruction of 50 freight cars loaded with wheat. The first ship to burn was the American ship Armenia, which became a total wreck. The next was the British wooden ship Hanovar, which drifted down the river like a fire raft on the top of the four-masted steam ship Kenilworth, of Liverpool. Their yards locked together, and both ships burned as they floated down the river. Considerable excitement prevailed during the conflagration, as a large number of ships were moored in the vicinity.

To Gas Consumers

The management of the Gas Company has the honour to advise the gas consuming public that owing to the reduction to one half in the price of the hire of meters, effected from the first of January last and to other considerations, the consumption continues to increase; but the Company being desirous of carrying out as soon as possible the plan indicated for some time in the newspapers of this capital, has resolved to reduce the cost of the fittings to appoint placing them within reach of all, and thus accomplish its wishes in favour of consumers.

La White Sewing Machine Co.

Cleveland Ohio
«Estados Unidos»
Marzo de 1889.

A nuestros amigos de Montevideo:

Tenemos placer en comunicar á Vd. que la Máquina de coser WHITE recibió el único premio y Medalla en la gran Exposicion Centenario que tuvo lugar el año pasado en «Cincinate» de los Estados Unidos.

La Exposicion duraba nueve meses durante todo este tiempo la máquina WHITE estaba diariamente en competicion con las máquinas de coser Doméstica New Home, Singer y otras.

Los Jueces sobre las máquinas de coser han dado su decision en las siguientes palabras.

Leer lo que dicen los Jueces: por su simplicidad de construccion; durabilidad y adaptabilidad de sus piezas movibles; facilidad de manejar y ajustar; por ser las máquinas de coser mas silenciosas y livinnas. Nosotros damos á la White Sewing Machine Co. único premio y medalla para la mejor máquina de coser de familia. Firmado los Jueces.

No ha sido dado ningun otro premio por máquina de coser de familia en esta «Exposicion,» los avisos de otras Fábricas anunciando haber sacado medallas y premios en esta competicion es pura falsedad y mentira.

No tenemos deseo de engañar al público pero cuando honores vienen, sabemos llevar la corona de victoria nosotros mismos.

WHITE

AL PUBLICO

Con el mayor gusto participamos á usted que hemos recibidos otra remesa de LAS FAMOSAS MÁQUINAS DE COSER perfeccionadas WHITE.

Unicas que existen en el mundo para hacer en toda clase de generos desde los mas finos hasta los mas gruesos, toda clase de costuras, bordados, etc., etc.

En ellas se borda con hilo de seda, oro, plata, algodon, gusanillo de felpa, litografias con soda negra (MUY CURIOSAS). Tambien se hace puntada calada ó dobladillo de ojo (COSA NUNCA HECHA POR NINGUNA OTRA MÁQUINA), ojales de todas clases, ribetes, ondas ó festones, para encordonar, rizar, alfombrar, trencillar, pegar encajes y adornar de vivo al mismo tiempo; en una palabra: cualquier persona puede hacer el trabajo mas dificil.

Como Agentes de dichas máquinas, invitamos á usted y á su apreciable familia, para que concurran á nuestro establecimiento situado en la calle 18 de Julio número 231: en la primera semana de Abril, de las 9 de la mañana hasta las 9 de la noche, para inspeccionar los trabajos de arte y utilidad ejecutados con tanta perfeccion en la máquina WHITE.

El Representantanto de la Fábrica ha venido expresamente á Montevideo para enseñar y explicar todas las diferentes reformas nuevas, y al mismo tiempo á perfeccionar algunos en nuestra casa en las operaciones de los nuevos accesorios para que estos á su vez instruyan gratis á las personas que compren máquinas WHITE.

SALUD, FUERZA Y ENERGIA.

FOSFODINA DEL DOCTOR LALOR.

El único remedio fosfórico, seguro y de confianza, que nunca había sido descubierto, para la curación definitiva de la debilidad del cerebro, de la parálisis, del insomnio, de los medios fatigosos, de la prematura pérdida de la fuerza vital y de todas las dolencias de los órganos fundamentales de la constitución derivadas de la insuficiencia de las fuerzas vitales. Cura la dispepsia, las enfermedades nerviosas y las del corazón; - Cura las enfermedades de los riñones y las del hígado; - Cura las afecciones de la sangre; - Cura la tisis y la debilidad general; Impide la diminución de las fuerzas vitales, sean cuales fueren las causas que la produzcan. La eficacia de este único remedio, en los casos de las debilidades orgánicas y de las dolencias semejantes, es inmediata y permanente: todas las enfermedades designadas y todos los síntomas aflictivos desaparecerán con una rapidez que es positivamente maravillosa.

FOSFODINA DEL DOCTOR LALOR.

Produce positivamente nuevos fluidos nerviosos y materia cerebral por que provee á la sangre del elemento vital, el único: el Fósforo, verdadero origen y fuerza central del cerebro mismo. La Fosfodina restablece, del modo más vigoroso y completo, las condiciones de salud robusta del cuerpo y del espíritu; en términos tales que todos los deberes de la vida pueden cumplirse confiadamente y hasta con gusto y este remedio, al mismo tiempo que tiene un sabor agradable, une las propiedades de purificar y enriquecer infaliblemente la sangre y fortifica enteramente al cerebro á los nervios y á los músculos. Desde el primer día en que se hace uso de la Fosfodina, se demuestran sus efectos enérgicos, por un notable aumento de fuerza nerviosa intelectual y por una sensación de brío vigor y bienestar que el enfermo carecía desde mucho tiempo antes.

La digestion se fortalece; el apetito se aumenta admirablemente; las funciones intestinales se regularizan; el sueño llega á ser tranquilo y reparador; se redondean las formas del rostro; los labios se ponen rojos y se aumenta el brillo de los ojos; el cútis adquiere un color mas claro que antes y mas sano y la cabellera se robustece tambien. Todas estas son pruebas de la importancia de la accion de la Fosfodina sobre los órganos de la nutricion.

FOSFODINA DEL DOCTOR LALOR.

Es el único remedio de este género y de este nombre, que obtuvo un diploma de mérito en la Exposicion de Calcuta de 1883-84 y la que hubo experimentado de todos los países.

Se vende en frascos á 4 s. 6 d., en todas las farmacias del mundo y en la fábrica en el laboratorio de
