IMPORTANT NOTICE

To Breeders and Trainers of Race Horses

Daniel Colledge, agent to W. H. Manser of Newmarket, England, and the only recognised agent of Blood Stock in the Argentine and Uruguay Republics wishes it known, that at the end of the present month he purposes returning to England and visiting most of the Breeding and Training establishments and hopes to secure «through the aid of W. A. Manser» some of the best strains of blood stock both for racing and breeding purposes that have ever left England and at a reasonable price.

Any gentlemen honouring him with commissions will have the advantage of his personal superintendence both in shipping and during the voyage to Montevideo and Buenos Aires, it being his intention to return by the same vessel with the animals bought.

Communications to be addressed c/o Messr. Bullrich. Alsina, Buenos Aires or to the EXPRESS Office,—93 Calle Cerro, Montevideo.

415.F.4.

The Express.

MONTEVIDEO, FEBRUARY 11, 1890

Mining Rights

We notice that Señor Clemente Barrial Posada has out a «Public Notice» in the columns of a contemporary with a sort of legal air about it in which he still holds out that he has mining rights over the Tacuarembó and Rivera departments.

The commencement runs as follows:

WHEREAS,

The Government of the Republic of Uruguay did by Decree dated July 27th 1852, (more than 32 years before the existence of the present Mining code) CONCEDE to Mr. Frederico Nin Reyes, the exclusive Ownership of all the Minerals, Copper and Gold existing in the Regions situated between the streams called «YUCUTUJA GRANDE» and «CUAREIM» between and the stream called «TRES CRUCES GRANDE» in the Department of SALTO. And all the Minerals of Gold and Copper existing in the «CERROS DE ARÉICUA» in the departments of Tacuarembó.

And also, All the Minerals of Gold and Copper in the Same department of Tacuarembo in the lands situated between the Rivers CUÑAPIRU and CORRALES also between these and YAGUARY and «CERROS BLANCOS» comprising the Districts of «YAGUALORY» with the Sections of «LAURELES «AREIGUA» «SAPOCAY» «GARPINTERIA» «CORONILLA» «AMARILLA» and «ARROYO DEL ORO.»

Señor Posada forgets to add that these rights lapsed even in the time of F. Nin Reyes, as the conditions of the Mining Code (even of those days) was never carried out, and consequently the concession lapsed even before it came into Señor Posada's hands.

Some months ago we went fully into the history of these claims, and even took the trouble to get the best legal advice upon the subject by which their futility was exposed.

At the end of the proclamation or manifesto or what ever Señor Posada chooses to call it he says and

DECLARES,

And makes known, so that no one may hereafter plead iguorance, that all trespassers on the property of the undersigned, as aforesaid, together with their assistants and accomplices, will be proceeded against before the courts until expelled, by Judicial order. And will be held responsible for all damages and losses that have been or that may be caused by their unlawful Acts.

All we can say is, let him try it! Let him bring it before a court of law. His agents have already been kicked out, when they have tried it on, and the district police have orders to take any one into custody who tries to disturb mining concessions given by the Government when they are acting on behalf of Sr. Posada's ridiculous claims. What he would like to do is to draw black mail from persons who may be taken in by what he calls his rights, But we are in a position to say to any one who gets a mining conces sion, that they can snap their fingers at Sr. Posada's claims, which do not exist.

The Great Flying Problem.

Professor R. H. Thurston, an American writer, who has devoted much attention to the problem of aerial navigation, summarises some curious results of recent experiments with birds and wings, including those of Professor Langley, the astronomer, which are as yet unpublished. Professor Langley has found that the power exerted by the eagle in full flight instead of being about thirteen horse-power, as computed by Navier and his followers, is actually but a fraction of one horse-power. Mr. Chanute computes the power exerted by a pigeon flying 2,000 feet per minute (25 miles an hour nearly), at 1-200 of a horse-power per pound, or 9 1-3 horse power for a flying machine of equally good form, weighing one ton, at 25 miles an hour, or about 50-horse power per ton weight at 50 miles.

Mr. Alexander makes the maximum allowable weight per horse-power of all the apparatus, 112 pounds; while Mr. Wenham, of our Aeronautical Society, finds, in the pelican, an expenditure of 1-11 horse-power by 21 pounds of bird; this is one-horse power to 231 pounds, or about a horse-power for the weight of a man, allowing ample margin for surplus power. The birds are found to have, according to the deductions from observations of Mr. Thurston's colleague, Professor Wilder, and others, a surplus lifting power of about one half.

The investigations of Lucy, Marey, and Pettigrew, and others, show that insects flutter wings of enormous area in proportion to their weight, at the rate of 200 or 300 vibrations per second; while the pelican makes but one per second the area of surface employed being a trifling fraction of that needed by the smaller creature, per unit of its own weight.

The vulture is one hundred times as heavy as the swallow, but its wings are only fifteen times as large. The Australian crane weighs three million times as much as the gnat, while the latter has 150 times as much wing-surface per unit of weight. But the power demanded is proportionate to the weight to be carried, and the muscles of birds' wings are found to weigh more than all their other muscles put together.

From those facts Mr. Nannel, computes the spread of wing that would be required by a flying man at about twenty feet, or say about 150 square feet area. For a machine weighing 3 1|3 tons he makes the needful spread of wing about eighty feet, but Professor Thurston computes it at a much smaller figure.

Correspondence.

To the Director of THE EXPRESS

Dear Sir,

Allow this humble servant of yours to rectify some statements which appeared in your independent paper, N. 557, about the death of the young lady Estella d'Olivares.

The poor girl has not died for having taken antipyrina; nor did she take *two* grammes of it, (other papers have said *four* grammes!) She got only *one* gramme to take and this one divided in *four* doses Everybody knows that such a little quantity cannot be dangerous in normal cases. So then this has not been the cause of the fatal accident.

But, what is more ascertained by science is that antipyrina produces its effects in less than an hour, how, as the case occurred *24 hours* after the medicine was taken, I leave to your judgement to draw the consequence. I do not pretend to accuse anyone; (accusing is a very easy and original thing.) nor shall In substract myself to my responsability if there is any in the case. But I pray you, Sir, to wait the result of the autopsy before pronouncing your final word in the matter.

I may also add that if justice and straight-forwardness are the guide in these researches, all doubts shall be cleared off, and truth appear to restore my honor and affirm my reputation. I confide until then in my conscience.

Permitmeat last to testify that I am not in prison yet; and that my shop is not closed, nor will it ever be for such cause.

I beg your pardon for the trouble I gave you, and beseach you to consider the writer as your most faithful servant.

The Donkey.

Montevideo, 9th February 1880.

URUGUAYAN NEWS

ENGLISH DRAMATIC COMPANY — There seems to be some probability of the Plata being favoured next winter with a visi from an English Dramatic Company, as Mr. Clearly, the eminent actor from the United States has recently arrived at Buenos Aires with this object in view. We hope Mr. Clearly will meet with enough support to warrant his carrying out the idea.

NUEVO POLITEAMA—The masked balls that took place at this theatre on Saturday and Sunday last, were very successful events for the «Empresario» Mr. Giribaldi. The theatre was splendidly arranged for the purpose, the orchestra beingplaced on the stage surrounded with shrubs and flowers whichmade the saloon show much better than could have been imagined. The theatre was filled with dancers, and the order and quiet behaviour which prevailed amongst them speaks very highly for the estimation and preference people give to the proprietors Messrs. Crodara and Carbone.

To-night another concert by the orchestra of Hungarian ladiees takes place, and in the second part of the programme a new ballet «La Rosa Magica» of the Chiarini's company is announced.

RACING — Splendid weather favoured the race meeting at Maroñas on Sunday, but perhaps the heat was rather too overpowering and prevented many people from making the journey from the City as the attendance was not so large as usual.

Gordon was a great favourite for the first race for which seven horses faced the starter.

After a short delay Araboy jumped off with the lead which he kept until the Station when Gordon went to the front and was never caught. Modista made a great effort at the turn for home but could not get up to the leader.

In the «Premio Monarque» the lot ran in a cluster down the hill, Rondador and Guaviyu leading to the home turn when Centinella challenged but Rondador kept his place and won by a neck.

In the next race the invincible Tilimuque ran and long odds were betted on the stable. Lucrecia made the running which was afterwards taken up by Aventurero who took advantage of his light weight, but Tilimuque coming at the distance passed the horse and won easily by two lengths.

This was a great performance as the mare was giving Aventurero fourteen kilos.

The «Premio Progreso» produced a field of eight mostly unknown to the racing public. Doña Juanita showed considerable restiveness at the post, and there were several breaks away, especially by Langlaate a very neat filly by Charibert, anyhow when they got off to a straggling start Langlaate obtained a good place and galloped down her field in good style winning easily, her backers were rewarded with the pleasing price of $ 12.75.

Tilimuque and Suri again turned out for the last race, and Tartarin could never extend the first named who won as she liked.

During the running of the third race a regular stampede took place of the horses and carriages on the opposite side of the course, more than twenty of them must have started the reverse may to which the horses were racing but odd enough only one brougham came to grief.

The following are the results.

«Premio Kleber»—

Gordon	1
Modista	3
Arapey	3
	Sport 3.74.

«Premio Monarque»—

Rondador	1
Centinela	2
Pavanne	3
	Sport, $ 7.48

«Premio Dead Heat»—

Tilimuque	1
Aventurero	2
Lucrecia	3
	Sport $ 2.70

«Premio Progresso»—

Langlaate	1
Cateinin	2
Doña Juanita	3
	Sport $ 12.75

«Premio Revancha»—

Tilimuque	1
Tartarin	2
Suri	3
	Sport $ 2.30

Our pet prophet gave four winners out of five pet.

THE LOTTERY—The following are the principal winning numbers of the Caridad lottery drawn yesterday:

8845. . . . . $ 25.000.

4562	1000	6015	500	1338	500
4499	200	8960	200	6977	200
6468	100	3567	100	3729	100
2488	100	7394	100	10476	100
9764	100	2401	100	6471	100

Aproximations

8844. 625
8846. 625

CRICKET MATCH. — The return match which was played on Sunday between the est Eleven of the M. C. C. against 15 other members resulted in the defeat of the latter by a large number of runs. The fifteen went in first but only managed to score 48, and the eleven soon wiped this off, and compiled a total of 199 when time was called, for the loss of six wickets. Messrs. Jefferies and Alexander especially distinguished themselves the former scoring 66, and the latter 45 not out.

We hope they will do equally well in the matches at Buenos Aires next week.

IMMIGRANTS—The Italian steamer Washington, from Genoa, brings 571 immigrants, who have been already landed and sent to the Immigrants Home, in calle 25 de Agosto.

THE PLATENSE COMPANY—Yesterday they had no river steamers from Buenos Aires. We do not understand why the Platense Company steamers do not run everly day as they have so considerable a number for the service.

THE CARNIVAL—The works for the festivities of the Carnival that were suspended by an order lately issued, are going on again, so we hope, that the Carnival will take place as usual.

ILLNESS.—The wife of Dr. Narciso del Castillo is dangerously ill. We hope she will soon be restored to health.

WORKING MEN.—On Sunday afternoon, at the Custom House mole, there was a large number of working men amounting to 110, that arrived from Buenos Aires by the Platense steamer Venus, in search of work which they cannotfind on the other side of the river. All of them looked strong, and in good health.

ARISTOCRATIC BALLS - Our society is preparing for the next carnival, to hold several balls that are to take place in the houses of many of the distinguished families of Montevideo. Among them are those of Mr. Jose Maria Castellanos and Mr. Clodomiro Arteaga.

The Uruguayan Club, will give a ball on Tuesday the 17th and the invitations have been already been sent out.

INTERVIEW—An interview between Dr. Duvimioso Terra and the President of the Republic General Tajes, took place yesterday in the private house of the last named. It is said that political affairs were discussed.

CROSA Y TRIMBLE—The affairs between these two well known gentlemen have passed to the S. Tribunal of justice, by the resolution of the Judge of Crimo.

ROBBERY — A Brazilian gentleman, went to bathe at Los Pocitos on Saturday afternoon, leaving his cloihes in th usual «casilla» for that purpose, bu when ne returned from his bath he found he had been robbed of a gold watch and $ 1200 more or less in money. The police captured two follows in the neighbourhood of the Pocitos, on suspicion of being the burglars.

COL. SALVADOR TAJES.—We are glad to state that the health of this gentleman is much better. He is already out of danger, and is now convalescent.

He has been often visited by the President of the Republic, the Presidents of the Senate, and Chamber of Representatives, General Luis E. Perez, Col. Pedro de Leon, Colonels Andreu, Rodriguez, Ginori, Lieut. Col, Jorez and many others important officers of the army and distinguished citizens. We hope he will soon be able return to his duties.

DEPARTURE. — Col. Ricardo Esteban, chief of police in the department of Minas, after receiving orders from the Government concerning his post, left to take possession of his command.

DR. MARTIN MAJO.—This well known gentleman, Police doctor at Paysandú, arrived yesterday. He comes here on some business concerning his profession.

CONCERT — A numerous audience assembled on Sunday night at the «Hotel de los Pocitos», where a concert was given.

Many families of our *high-life* were present until late on the night as they did not want to return back to their homes on account of the fresh air at Pocitos. Spinelli played numerous and well selected pieces, amongst others the «Sinfonia» of «Guillermo Tell».

The service of trams was much better than usual for which we congratulate the manager Mr. Latorre.

GOOD LUCK—A young gentleman of the name of Julio Sacarelo lately won the big prize in the Caridad lottery and to commemorate his good luck he gave a banquet to his friends on Saturday last at the Prado hotel.

THE INFLUENZA—On board the U. S. flag-ship Richmond there are 70 of the sailors attacked by this disease.

MOURNING—In consequence of the recent death of Duc of Montpensier, the flags in the republic biuldings and ships anchored in port were at half mast.

LATEST FOREIGN NEWS

The new Princess of Monaco had the pleasure of being received yesterday at the Elysée, with her husband, with sovereign honours, M. Carnot received them at the all door and took them upstairs, where they were awaited by Madame Carnot. Arms were presented on their coming and going. A quarter of an hour after they left, the President returned their visit. Our Paris Correspondent says that they were to have made their triumphal entry into Monaco to-day, but, owing to the bad weather, they have posponed the ceremony.

Mr. Chaplin, President of the Board of Agriculture, has appointed Viscount Folkestone to be his Assistant Private Secretary.

An official bulletin of the health of the King of Spain is published every morning. The *Gazette* said yesterday that the King had passed a tranquil night, after a slight relapse at the beginning of it. The Ministerial papers last night said that he passed a quiet day.

Dr. W. L. Fischer, Emeritus Profesor of Mathematics in the University of St. Andrews, died at St. Andrews yesterday morning, after a few days' illness, from bronchitis. He was upwards of eighty years of age, and had been connected with the University of St. Andrews since 1847.

Mr. Thomas Brigot, brother of the late John Bright, and managing director of John Bright Brothers's extensive manufactories, died yesterday afternoou at his residence, Rochdale, in his 76th year. The whole of his life was devoted to the business of the firm, and its success was due to his skiful management. He died from congestion of the right lung and an attack of pleurisy.

About the influenza we reporte-day that it is causing a great increase in the New York death rate. The telegrams state that the number of deaths rose from 140 on Monday to 235 on Tuesday. 135 being ascribed to the results of influenza, while yesterday the unprecedented figure of 250 was reached. Visitors are reported to be leaving Paris rapidly. Dr. Deollinger, is better. It is estimated that in Vienna 45,000 persons have suffered from the epidemic. At home Lord Salisbury still improves. The number of influenza cases under treatment at the General Post Office yesterday showed an increase of 20 on the previous day. Among telegraph boys the cases average one in nine of the total employed. Taking the postal service as a whole, one member in seven is absent rom duty. Among those suffering are he telegraph department. The troops at the various military centres are also suffering, and the divisional parade at Aldershot had yesterday to be abandoned.

At the resumed inquest, yesterday upon the death of the twenty-six boys who lost their lives early in the morning of New Year's Day in the fire at Forest Gate Industrial Schools, there was no clear evidence as to the cause of the disaster. Some excitement was created by an official named Henry Elliott declaring that he was a ruined man in consequence of the evidence that he was about to give with reference to the Superintendent of the Schools: but the evidence itself did not justify the assertion and repeated questions failed to obtain a clear explanation from the witness. The inquest was adjourned for a week.

The Windsor Steeplechases are now concluded. Mr. R. Marsh won the Rays Handicap Hurdle race with Cadet Mr. Strong the Clewer Handicap Steeplechase Plate with Gamecock, and Mr. A. Yates the Taplow Selling Handicap Hurdle Race with Gipsy king.

Evidence was given at Bow-street yesterday, on the further hearing of the charge of conspiracy against Mr. Newton and others, to show that on the 4th October Mr. Newton took three tickets at Cook's offices for passengers by the steamer Pennland, which sailed from Antwerp next day for New York. It was also stated that Mr. Newton his clerk, Mr. Taylorson, were afterwards at Brussels and Antwerp; and Mr. Avory, who prosecuted for the Treasury, said he should prove that Taylorson sailed with Hammond for New York. The Court adjourned till to-day.

On the resumption yesterday of the Board of Trade inquiry respecting railway rates and charges, Sir Henry James, representing various railway companies, announced that negotiations were going on between the principal traders and the railway companies, with the object of amicably arranging the classification.

The obections of the traders had been tabulated. Already the railway companies had met many of them, and were endeavouring to meet more. In reply to an application, Lord Balfour of Burleigh said that he and his collegue, Mr. Boyle, would consider whether the clasifications with the objections that had been adjusted should be printed and circulated among traders who had not as yet come into the arrangement. Mr. Lambert, general manager of the Great Western Railway, was then further examined as to the charges made by that company.

With respect to the attempts to stop the supply of coal intended for the South Metropolitan Gas Company, it is stated on the authority of Mr Livesey, that the company have sufficient coal in stock to last for three weeks. Last week the company's supply was increased by 1,200 tons.

«The Era» Almanack, which has only just made its appearance, comprises the customary chronicle of new plays, and shows that some 220 titles have been added to the repertory of the modern drama in the 12 months recorded by the London theatres alone, while rather more than half that number have come out in the country. The register of deaths of persons more or less noted in connection with the stage is heavy, extending to nearly three hundred and fifty names. As usual, the Almanack comprises many light articles on dramatic subjects. It presents also what is probably, the last series of the actors' and actresses' replies to the editor's schedule of questions. They are headed by Mrs. Langtry, whose ideal mode of passing old age is «playing Ingenues,» and whose oddest recollection of a slip on the stage is the mishap of an actor who invited the object of his love to seek with him «some nosey cook,»

Cremation is making rapid advance in public favour. The first cremation at Woking was conducted in the spring of the year 1885, About fifty cremations have taken place since last May, whose operations were resumed after the entire reconstruction of the building hitherto existing there, and to addition of the handsome little chapel. On several occasions there have been two bodies cremated on the same day. Not only is hostile sentiment giving way, but it is begining to be found that for middle and upper class funerals cremation is really cheaper than burial. The total cost of it, including what is ordinarely implied when we speak of a funeral, is stated to be 15*l*.

An official denial, which our Paris Correspondent says is characterised by some asperity, was given yesterday by the *Agence Havas* to the *Lanterne's* story of the alleged intention of M. Carnot to visit Belgium and meet the Emperor William at the Brussels fêtes. As the President now wields great personal influence and is very popular he may expect to be exposed to attacks of this kind.

Our Constantinople Correspondent says that opinions vary there on the question whether the epidemic raging in Western Europe is identical with that which was called Dengue fever in Constantinople. «One of our leading medical men,» adds our Correspondent, «constantly refused to speak of the malady as Dengue fever, and called it Influenza.

Another, however, who has been professor of Oriental diseases in India maintains that we had true Dengue fever, and that the symptoms of influenza are not those which characterised the epidemic which raged here most fiercely during September and October. One of these symptoms was a rash, which usually covered the the face, legs, and arms. Most people, however, believe that the influenza emidemic is the direct successor, even though changed in some of its features through climatic or other influences, of that which, having ravaged Smyrna, came on to Constantinople and as I informed your readers at the time, laid probably one-third of the population down. Thence it proceeded northwards to Austria and Russia and elsewhere.

A long drought of nearly five months is believed to have aided its spread in the Balkan penisula. The heavy rain which came in November immediately diminished the number of cases. There have, however, been many instances of persons having a second attack of influenza, and unfortunately other ailments of a more serious character have followed in its train. Scarlatina is so prevalent that a fortnight ago some of the leading schools were closed, and, a municipal order has been bh issued wiey all schools are to be closed until further notice.»

—The killings at the Saladeros of the River Plate and Rio Grande, during the past month, amount to 419.700 head of cattle, of which 122.000 belong to the Saladeros of Montevideo, and 65,000 to Rio Grande.

—The statutes of a new limited company called «La Nacional» have been presented to the Commercial Judge, for his approval.

—The announced general meeting of the share-holders of the Transatlantic Bank, did not take place on Saturday.

—General Meeting. The will now be fixed at the next meeting of the Directors.

—The German s. s. Warburh was despatched on the 4th form Rosario for Antwerp and Bremen with 5027 bargs wheat, 10.237 do maize, 4 bales wool. From this port 8050 dry hides, 246 bales wool 26 do hair. For Antwerp 302 bales wool 635 do for Bremen.

—The s. s. Dresden of the North German Lloyds leaves on the 15th from Buenos Aires with 9000 dry hides for Vigo, 8000 salted do, 300 bales wool for Antwerp, 3900 do and 600 salted hides for Bremen. In Montevideo she loads 400 bales of wool.

—The demand by shareholders of the National Credit Company to have a committee of investigation has received many adherents and a document to that effect is being numerously signed for presentation to the Directors so that a general meeting may be convened. The idea has been well received by the body of shareholders so that they may be enabled to know the correct position of the Company.

MARITIME NEWS

Arrivals and Sailings

February 7.

—Str. Matapan from Bahia Blanca.
Str. Washington from Genoa.
Str. Golondrina for Buenos Aires.
Str. Venus for Buenos Aires.
Str. Jupiter for La Plata direct.

General Notes.

—The Belgian steamer Chaco has arrived from Antwerp to Buenos Aires consigned to Missrs Maumus and Co.

—There has arrived in port at Buenos Aires a little steam launch called the Chaco, of only 14 tons burden, which has crossed the Atlantic from Antwerp in 102 days, calling only at Bahia. The captain, J. Saykens, intends taking her to Asuncion, for port service there.

—The str Eolo left this port Sunday afternoon for Buenos Aires and Salto, having on board 122 passengers.

—H. B. M. man-of-war Bramble left for this East as for Colonia, on a voyage of instruction.

—The steamer Manilla left for Genoa and ports on Sunday, with 47 passengers.

—The str. Rivadavia is expected in por today from Buenos Aires and Uruguayan ports.

To the consumers of Gas

The Gas Company has the satisfaction of announcing to the public that owing to the improved service of lighting by reason of the various extensions and the increased size of main pipes laid last year over a large portion of the City and suburbs, and the reduction of one half the rent of the consumers' meters and other considerations, the consumption of gas continues to increase.

The Company has always a large assortment of gas fittings, burners, stoves etc. in deposit and receives monthly new and elegant designs from the best European manufacturers which can be seen and purchased at very reasonable prices at their **Stores No. 18 Calle del Uruguay.**

The Company has a large staff of experienced and careful workmen for fixing internal pipes in the houses, and they are always at the disposal of the public.

La White Sewing Machine Co.

Cleveland Ohio
«Estados Unidos»
Marzo de 1889.

A nuestros amigos de Montevideo:

Tenemos placer en comunicar á Vd. que la Máquina de coser WHITE recibió el único premio y Medalla en la gran Exposicion Centenario que tuvo lugar el año pasado en «Cincinato» de los Estados Unidos.

La Exposicion duraba nueve meses durante todo este tiempo la máquina WHITE estaba diariamente en competicion con las máquinas de coser Domésticas New Home, Singer y otras.

Los Jueces sobre las máquinas de coser han dado su decision en las siguientes palabras.

Leer lo que dicen los Jueces: por su simplicidad de construccion; durabilidad y adaptabilidad de sus piezas movibles; facilidad de manejar y ajustar; por ser las máquinas de coser mas silenciosas y livianas. Nosotros damos á la White Sewing Machine Co. único premio y medalla para la mejor máquina de coser de familia. Firmado los Jueces.

No ha sido dado ningun otro premio por máquina de coser de familia en esta «Exposicion,» los avisos de otras Fábricas anunciando haber sacado medallas y premios en esta competicion es pura falsedad y mentira.

No tenemos deseo de engañar al público pero cuando honores vienen, sabemos llevar la corona de victoria nosotros mismos.

White Sewing Machine Co.

National Bank

Arrangements for the shares in Europe

The Directors of the National Bank desire that it should be known to the Public that they have arranged through their Agency in London for the payment of the coupons on their shares in Europe. Every share leaving this country must be regisiered in a book kept for the purpose at the Central Office, one month before the data of the payment of the coupon. They must also be registered in another book kept at the London Agency in which the holders or their powers of attorney should register their signatures and all transfer of title.

The payments in London will be made at the rate of 4 shillings and 2 pence per gold dollar, free of commission, one month after, day fixed for payment in Montevideo.

14 January 1889.

Jan. 31-x. p.

LA NUEVA YORK

COMPAÑIA DE SEGUROS DE VIDA

ESTABLECIDA EN 1874

FONDO DE RESERVA: MAS DE CIEN MILLONES DE PESOS ORO

Esta reserva pertenece exclusivamente á los asegurados, pues la Compañia es puramente mutua, no tiene accionistas y la forman sola mente los asegurados, que entre si reparten todas las ganancias y eligen la administracion.

EXPLICACION DEL SEGURO DE VIDA

Asegúrase por ejemplo un hombre de 40 años en la tabla de 20 pagos anuales por DIEZ MIL PESOS pagando al año 465 pesos, conforme marca dicha tablilla.

Todos los años el asegurado recibe sus utilidades al contado ó en aumento del seguro, segun quisiera, y al fin de su contrata cesan sus pagamentos, pero queda asegurado en diez mil pesos por toda su vida.

Si prefiere acumulacion de ganancias, puede escoger entre lo siguiente al fin de los 20 años:

I. Recibir al contado sus utilidades acumuladas, que importan cerca de siete mil pesos y además quedar asegurado en diez mil pesos por toda su vida sin pagar nada mas.

II. No sacar las ganancias y quedar asegurado en mas de veinte mil pesos por toda su vida sin pagar nada mas.

III. Hacer liquidacion total y recibir cerca de trece mil pesos al contado.

Si el asegurado muere, la Compañia pago los diez mil pesos luego integramente, aunque la muerte ocurriese en el primer año, habiendo el asegurado pagado solamente los primeros 465 pesos.

Puédese hacer el seguro tambien por 15 ó 10 años conforme las tablillas correspondientes: y la contribucion depende naturalmente de la tabla escojida, de la edad del proponiente y de la cuantia asegurada.

Para un seguro, como arriba esplicado, la contribucion anual seria pues pesos 232.50 para cinco mil pesos ó $9.30 para veinte mil pesos.

Se hace el seguro en beneficio de uno ó diversas personas determinadas ó «á órden.» En este último caso el asegurado puede disponer de su seguro en cualquier época, sea por transferencia ó bien sea por disposicion testamentaria y si fallece sin testamento, se pagaria el seguro á sus herederos legales.

El asegurado que suspende los pagamentos despues de tres ó mas años, queda asegurado á su demanda en proporcion á los pagos hechos, desapareciendo así el peligro de caducor el seguro.

El seguro sirve pues como caja de ahorros en caso de larga vida y en caso de muerte prematura, constituye al instante una herencia considerable con poco gasto.

WHITE

AL PUBLICO

Con el mayor gusto participamos á usted que hemos recibidos otra romesa de LAS FAMOSAS MÁQUINAS DE COSER perfeccionadas WHITE.

Unicas que existen en el mundo para hacer en toda clase de generos desde los mas finos hasta los mas gruesos, toda clase de costuras, bordados, etc., etc.

En ellas se borda con hilo de seda, oro, plata, algodon, gusanillo de felpa, litografias con soda negra (MUY CURIOSAS). Tambien se hace puntada calada ó dobla dillo de ojo (COSA NUNCA HECHA POR NINGUNA OTRA MÁQUINA), ojales de todas clases, ribetes, ondas ó festones, para encordonar, rizar, alfombrar, trencillar, pegar encajes y adornar de vivo al mismo tiempo; en una palabra: cualquier persona puede hacer el trabajo mas dificil.

Como Agentes de dichas máquinas, invitamos á usted y á su apreciable familia, para que concurran á nuestro establecimiento situado en la calle 18 de Julio número 231: en la primera semana de Abril, de las 9 de la mañana hasta las 9 de la noche, para inspeccionar los trabajos de arte y utilidad ejecutados con tanta perfeccion en la máquina WHITE.

El Representantante de la Fábrica ha venido expresamente á Montevideo para enseñar y explicar todas las diferentes reformas nuevas, y al mismo tiempo á perfeccionar algunos en nuestra casa en las operaciones de los nuevos accesorios para que estos á su vez instruyan gratis á las personas que compren máquinas WHITE.

Abril de 1889.

All orders carefully and promptly executed
Workmanship guaranteed.

SALUD, FUERZA Y ENERGIA.
FOSFODINA DEL DOCTOR LALOR.
El único remedio fosfórico, seguro y de confianza, que nunca habia sido descubierto, para la curacion definitiva de la debilidad del cerebro, de la paralisis, del insomnio, de los sueños fatigosos, de la prematura pérdida de la fuerza vital y de todas las dolencias de los órganos funcionales de la constitucion derivadas de la insuficiencia de las fuerzas vitales.
Cura la dispepsia, las enfermedades nerviosas y las del corazón; — Cura las enfermedades de los riñones y las del higado; — Cura las alteraciones de la sangre; — Cura la tisis y la debilidad general; — Impide la disminucion de las fuerzas vitales, sean cuales fueren las causas que la produzcan.
La eficacia de este unico remedio, en los casos de las debilidades nerviosas y de las dolencias semejantes, es inmediata y permanente: todas las sensaciones desagradables y todos los síntomas aflictivos desaparecen con una rapidéz que es realmente maravillosa.

FOSFODINA DEL DOCTOR LALOR.
Produce positivamente nuevos fluidos nerviosos y materia cerebral por que provee á la sangre del elemento vital eléctrico: el Fósforo, verdadero origen y fuerza central del cerebro mismo. La Fosfodina restablece, del modo mas vigoroso y completo, las condiciones de salud robusta del cuerpo y del espíritu, en términos tales que todos los deberes de la vida pueden cumplirse confiadamente y hasta con gusto y este remedio, al mismo tiempo que tiene un sabor agradable; une las propiedades de purificar y enriquecer infaliblemente á la sangre y fortificar enteramente al cerebro á los nervios y á los musculos. Desde el primer dia en que se hace uso de la Fosfodina, se demuestran sus efectos enérgicos, por un notable aumento de fuerza nerviosa é intelectual y por una sensacion de brio vigor y bienestar á que el enfermo carecia desde mucho tiempo antes.
La digestion se fortalece; el apetito se aumenta admirablemente; las funciones intestinales se regularizan; el sueño llega á ser tranquilo y reparador; se redondean las formas del rostro; los labios se ponen rojos y se aumenta el brillo de los ojos; el cutis adquiere un color mas claro que antes y mas sano y la cabellera se robustece tambien. Todas estas son pruebas de la importancia de la accion de la Fosfodina sobre los órganos de la nutricion.

FOSFODINA DEL DOCTOR LALOR.
Es el único remedio, de este género y de este nombre, que obtuvo un diploma de mérito en la Exposicion de Calcuta de 1883-84 en la que hubo exponentes de todos los paises.
Se vende en frascos á 4 s. 6 d. en todas las farmacias del mundo y se fabrica en el laboratorio de
FOSFODINA DEL DOCTOR LALOR.
